Township Chairman Denny Moyer reports that the township has been busy improving the roads in the township. He states they have ground and paved the roads in the Sunnywoods Estates which includes Winfield Drive, Sherwood Court, and Bayberry Court. Several roads off of State Route 231 will also be repaved and include Shamrock Court and both North and South Tecumseh Trail. The Chip and Seal program was utilized on numerous roads. These included: TR 73 (River Road), TR 159 (Gillig), TR 207 (Woodland Acres) and TR 1175 (Evergreen Drive). Harley and Huron Streets located off of SR 18 have also been chipped and sealed. Using this method allowed the township trustees to be more fiscally responsible with the township road funds saving money.

A grant from OSS Recycling also helped pay \$12,000 for asphalt to be installed around the recycling bins at the Township House (behind Fire Station #1). In a joint

effort with **Scipio Township**, we also paved TR 177 to improve the last dirt road in the township. This road is co-owned by both townships. *Great cooperation with Scipio on this project!* Road worker Jim Lang and temporary help continue to fill cracks within the district and repair berms as needed. If you see something you would like them to evaluate, feel free to call a trustee.

Clinton Fire Department awarded grant money

The Township Fire Department was awarded \$60,000 towards the purchase of new communications radios and pagers, a RollnRack hose system, thermal camera's, a Kodiak stabilization kit, 10 sets of turn out gear and new swift water gear. They contributed \$5,000 of their own money for a combined total of \$65,000. Great Job guys! Special thanks to Charlene Watkins at Regional Planning for help with the grant application process.

Ford Drive Fundraiser Results

- ◆ Over \$4000.00 was raised in the Ford Drive with many drivers participating
- ◆ Make a charitable donation to Clinton Township Firemen's Association, a tax exempt 501(c)(3) organization
- ◆ All proceeds are earmarked for a new Fire Station #1

Annual Fire Dept Ox Roast Dinner

The Clinton Township Fireman's Association invites you to attend the 2018 Annual Ox Roast Dinner, hosted at the Township Fire Station #1 (SR 101) on September 30th. This year's Adult dinner includes 2 Ox roast sandwiches, applesauce, baked beans, cole-slaw, drink and an ice cream dessert for only \$11.00 per meal! A child sized meal is the

same with one less sandwich for \$8.00. There will be a special area for take out meals, as well as the usual seating at the Fire Station. Last year we served approximately 1500 take out orders and 500 sit in's and we want to have a bigger showing this year! No need to cook that day, come on down for a meal that fills you up and helps support YOUR volunteer fire department!

Sunday
September 30th
11am - sold out!

Clinton Township - Seneca County

Township Partners with Seneca County Regional Planning

The Seneca County Regional Planning Commission (RPC) needs your input! Visit their site to participate in the upcoming community plan.

Seneca County, the cities of Tiffin and Fostoria and the Seneca County Park District have joined together to create a comprehensive Community Plan. The plan is a 20-year road map to guide Seneca County's future growth. This document will support the coordinated de-

velopment of the County. It considers broad issues like land-use policies and economic development, while also covering specific community concerns relating to affordable housing availability, agricultural and historical preservation and transportation mobility, to name a few.

Throughout the creation of the plan, all community members are encouraged to participate and share their concerns. One way to do this is to participate in the Community Survey via the link provided below.

The survey is an important part of the development of the plan and is a convenient way to gather the perspectives of a wide range of

people from across the county. It should take you no longer than 15 minutes to complete. It has four sections each covering different topics: Seneca County general, the City of Tiffin, the City of Fostoria and the Seneca County Park District. Feel free to answer all four, or only the subjects most relevant to you. Thank you in advance for your participation.

The Twilight Zone - Building and Zoning Permit Questions

Remember to call and get Building Permits for these items this fall:

- ◆ Fences
- ◆ Garages & Sheds
- ◆ House Additions
- ◆ Propane Tanks
- ◆ Decks and Pools
- ◆ Storage Buildings
- ◆ Business Signage

Do I need a permit to tear down a structure?

No, you do not need a permit from the township to remove a structure, but you will want to contact the County Auditor and have it removed from your tax bases. If you are going to rebuild the structure, then call the zoning inspector for further guidance.

Where can I put my propane tank?

Propane tanks are regulated the same way as any of our "accessory" buildings and need to be placed behind the plane of the house, and need to be 10 feet away from any other structures (National Fire Code). It would also need to be setback from rear and side property lines, call for details.

How long does it take to get a permit?

Usually permits are granted at the same time you make the application and pay the fee. Only if there is a problem with the plans would the permit be delayed.
