

Trustee Distel says in the last Grassroots Clippings there was an article about the 2022 Community Facilities Direct Loan and Grant Program that offers very low interest rates. It is something we could keep in mind if we would need to borrow a small portion of money to complete the new fire station.

Regarding the State land across the street, the State wanted a map of what we would want or need, so Clouse Construction wrote up two different plots that they thought would work.

Ben Bishop says Bascom Communications gave us a modem/router combo. We got our own router, so we need just a modem from them. He also asks how much it would cost to increase the speed from 8 Mb/s to 10 Mb/s. Chief Hafley asked if we can buy a color printer for the fire office so they can print photos. He also says he is getting a quote on letterhead and business cards.
